Note: The following Resolution 2321 clarifies that the fields in which all Member States shall prevent specialized teaching or training for North Korean nationals are not limited to advanced materials science, advanced chemical engineering, advanced mechanical engineering, advanced electrical engineering, and advanced industrial engineering.

Security Council Resolutions

Security Council

Resolution 2321 (2016)

10. Clarifies that, for the purposes of implementing paragraph 17 of resolution 2270 (2016), specialized teaching and training which could contribute to the DPRK's proliferation sensitive nuclear activities or the development of nuclear weapons delivery systems includes, but is not limited to advanced materials science, advanced chemical engineering, advanced mechanical engineering, advanced electrical engineering and advanced industrial engineering;

11. Decides that all Member States shall suspend scientific and technical cooperation involving persons or groups officially sponsored by or representing the DPRK except for medical exchanges unless:

(a) In the case of scientific or technical cooperation in the fields of nuclear science and technology, aerospace and aeronautical engineering and technology, or advanced manufacturing production techniques and methods, the Committee^{*)} has determined on a case-by-case basis that a particular activity will not contribute to the DPRK's proliferation sensitive nuclear activities or ballistic missile -related programmes; or

(b) In the case of all other scientific or technical cooperation, the State engaging in scientific or technical cooperation determines that the particular activity will not contribute to the DPRK's proliferation sensitive nuclear activities or ballistic missile-related programmes and notifies the Committee in advance of such determination;
